DETAILED ACTION

Information Disclosure Statement

1. The applicant's communication dated 02 February 2006 states that their Information Disclosure Statement filed 24 July 2003 was never acknowledged.

A review of the application history shows that there is no IDS on file for 24 July 2003. Therefore, there was no way to return an initialed/signed copy. However, the applicant's transmittal letter of 24 July 2003 does list an IDS as being part of the original filed application. The transmittal letter also shows that the International Search Report was filed. This, too, is not in the application's file.

Since the transmittal letter shows the IDS as being submitted it is being examined. The Abstract for Japanese Laid Open Patent Application Publication 03-170838, listed on the IDS copy filed on 02 February 2006, does not appear to affect the patentability of the applicant's claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A. Rogers whose telephone number is (571) 272-2205.
